

City of Shueyville

Online Local Business Directory

The City of Shueyville maintains a City website where local businesses are listed.

The City of Shueyville also maintains a digital sign located on the corner of 120th Street and Club Road, which displays a message directing viewers to the City website for a local business listing.

The Shueyville City Council has authorized the City Clerk to update the online local business directory. When adding a business to the directory, the business should meet the following qualifications:

- a) The business must be located within the Shueyville city limits.
- b) The business must have a storefront/walk-up location for patrons to enter.

If a business meets the above qualifications, they may request to be added to the local business directory by emailing the City Clerk with the location, contact information, and a website address for the business. Businesses in the directory are listed in alphabetical order.

The City of Shueyville is proud to support and represent local businesses in our community.
